

**DISTILLERIE DE LA TOUR** is an independent company and a major player in the wine, Cognac and spirits industry. Therefore, we must always remain a reference in matters of notoriety, ethics and dynamism for our clients and partners.

By anticipating the risks linked to our sector of activity and by capitalizing on opportunities, our policy is based on the following:

- Satisfy and win the loyalty of our clients by taking into account their requirements and respecting our commitments.
- Produce and deliver products of irreproachable quality with regards to foodstuff security.
- Develop our wine and spirit activities by offering an efficient and diversified range, which suits the market's demands in terms of quality control.
- Generate added value and profitability to reinforce our independence and invest for our future.
- Reduce our carbon footprint and make pollution prevention a priority.
- Select our suppliers and service providers rigorously and build loyalty.
- Encourage personal development and well-being of our co-workers in order to attract and retain talented people.
- Be objective and transparent with our economic and financial health to insure the means of our development.
- Respect regulations and cultivate our professional ethics.

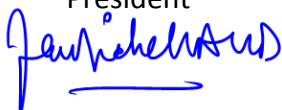

Integrity and goodwill must guide us throughout our continuous improvement approach in order to reach our Foodstuff, Environment, Quality and Security goals.

To guarantee success, our QHSE team has the authority to apply our policy and monitor our management system.

Senior management encourages and supports each person in charge of applying this policy for their processes and their action planning.
